FIFTEEN CENTS

Grand jury tie?

Haley requests another trial

Although William Haley's sentencing for Florida drug trafficking was continued until June 26, West Palm Beach Assistant States' Atty. Jerome Davis expects to arrive at that hearing with stronger evidence against Haley.

Allegedly, there is some connection between Haley and a federal grand jury investigation on dope trafficking that is in progress in Chicago.

Ira Raffelson of the Federal Drug Enforcement Administration located in Chicago said that the cloak of secrecy that protects such an investigation banned him from even confirming that such an investigation is going on.

Yet rumors are flying among the law enforcement agencies that some local indictments are expected to come out of the alleged investigation.

On June 5, Haley's lawyer, Atty. Phillip Butler, entered a status check request. On June 6, when Haley, who was convicted by a Florida jury of drug trafficking in a three-year-old West Palm Beach drug case, was due to be sentenced, Butler made a motion for a new trial.

This motion was based on the fact that the prosecution refused to tell the defense the exact location of Woodrow Wilson before Haley's trial in April.

Wilson, the pilot of the plane that was confiscated with over \$450,000 worth of marijuana aboard, was the chief prosecution witness.

In accordance with Florida law, Wilson was given probation for testifying that Haley had hired him to deliver the drugs.

According to Davis, West Palm Beach County Judge Richard Burke granted the continuance for due consideration of the new trial request.

Davis said he does not expect that motion to be granted because Burke ruled before Haley's trial that only the state in which Wilson was located and his type of employment need be turned over to the defense.

Davis said the judge made the ruling after hearing the threats that had been made against Wilson.

Haley faces a mandatory three-year prison sentence plus a \$25,000 fine for the West Palm Beach charge.

The maximum sentence he faces on this charge is 30 years. Whether or not any new evidence will change this will be revealed on June 26 when Burke is expected to either sentence Haley or grant the new trial motion.

Pending the sentencing hearing, Haley remains in prison in Florida without bond.

RETIREMENT RECEPTION - Everyone who came to the June 10 reception honoring John Kakacek didn't get a hug, but those who did are likely to remember it. The former professional wrestler is retiring after 14 years as superintendent at Emmons Elementary School. The large crowd of well-wishers included Kakacek's wife, Ann, (left) and Clare DeMortini (right), a good friend and admirer.

Second accused killer faces Florida jury

Kenneth Palmer, 18, accused murderer of Mark Meyer, 25, former Antioch resident and son of Henry Meyer, former Antioch Grade School superintendent, is scheduled to face jury trial on Monday, June 11.

The two admittedly picked Meyer up at a local McDonald's, robbed him, killed him and later burglarized the home of his parents.

Quintin Stacey Allen, 19, has already been found guilty of manslaughter, robbery, kidnapping and burglary by a Polk County, Fla. jury, in connection with the Meyer death.

Allen's sentencing is on hold pending the disposition of the Palmer trial.

Although both men admit to being present when Meyer was tied to a tree and stabbed to death, each accuses the other of the actual murder.

Meyer's body was found on Nov. 6, 1983 tied to a tree near Winter Haven, Fla., in the same area where the retirement home of his parents is located.

House empty Blaze start is suspect

An early morning fire of suspicious origin, in an unoccupied house on Linden Ln. in Antioch Township destroyed 75 percent of the home.

According to Wayne Parthun, chief investigator for the Antioch Fire Dept., the Antioch firefighters answered the fire call at 12:37 a.m., on Thursday, June 7, to find the vacation home owned by Kazmierz Pecherek of Chicago completely in flames.

The fire department stayed on the scene putting the fire out and examining the rubble until 5:30 a.m. after Pecherek was informed of the blaze.

Parthun said that the cause of the fire remained under investigation by the Antioch Fire Dept.

Valve fails, truck flips

A semi-trailer truck tipped over on Rte. 173, at 9:02 a.m., on Wednesday, June 6. Its driver, Dennis Cokey, 34, Glenview, was taken to St. Therese Area Trauma Satellite for treatment by the Antioch Rescue Squad.

According to the Lake County Sheriff's Dept., the truck was heading east on Rte. 173 when a hydraulic valve failed, causing the dump box to rise.

The truck driver told sheriff's deputies that he tried to stop and couldn't. When the trailer rounded a righthand curve it tipped over into the guard rail.

Cokey said that the valve had failed once before, a month ago. A witness told deputies that he saw the lift strike the wires, sending sparks flying.

Medical school reports lists June programs

"You continue to amaze us by your competence in the field. The classes seem to get better and better every year." With those words John P. Freeland, M.D., project medical director of the Emergency Medical Service/Mobile Intensive Care program at Victory Memorial Hospital, began his remarks at the graduation ceremony May 19, for 22 men and women who completed the nine-month, 400-hour course.

"The word among paramedics in our system is 'we're out here practicing on Freeland's license.' Let me tell you, you're out there because you are competent to deal with the emergency situations you face. I don't lose any sleep at night about my medical license. 'The sad thing,' he said, 'is you don't get the praise you deserve, but what you are doing is a most worthwhile thing.'"

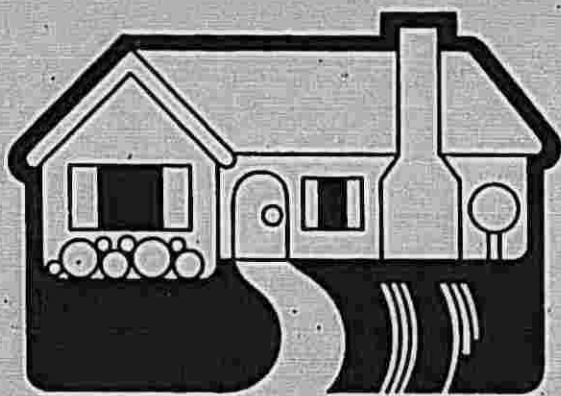

Raeann Fuller, R.N. CCRN EMS/MIC director thanked Jean Gennatas, R.N., instructor; the paramedic volunteers instructors who helped with the class; Victory volunteer Marian Reese and department secretary Doris Anderson, as well as the chiefs and officers of the various participating departments and services.

In her address to the graduates Fuller said, "Remember we exist for the patient. The best skill may not be starting an I.V., attaching a monitor or administering a drug, it is your voice. Talking with the patient, telling them what you are doing, getting information from them, generally using your verbal communications skills can often calm the individual and help you. Think of the patient as if it were someone you love because it may very well be that someday one you love will need the help of a paramedic."

The new graduate paramedics are: Robert Polo and Phillip Ried, Advance Ambulance; Mark Harasti and Erich

Lubkeman, Antioch Rescue; William Loud, David Nellesen and Harold Quiram, Buffalo Grove Fire Dept.; Mary Olandese, Lake County Ambulance; Gary Bender, Lake Villa Rescue; William Kidd, Lake Zurich Rescue; Harry Jozefowicz, Superior Ambulance Service; John DiNicola, John Salata and Felipe Melendez, members of the Waukegan Fire Department; Gary Eppers, Duane Peacy, Michael Stried and Gary Thomas, Zion Fire/Rescue Department.

This was the 12th paramedic graduating class at Victory Memorial since the program was initiated in 1971 making it one of the original systems in Illinois.

ANNOUNCING

EQUITY CLASSIC

A New Concept In Homeowner Liquidity

If you own your home, you may have built up considerable equity — but that's money you usually can't get without taking out a second mortgage.

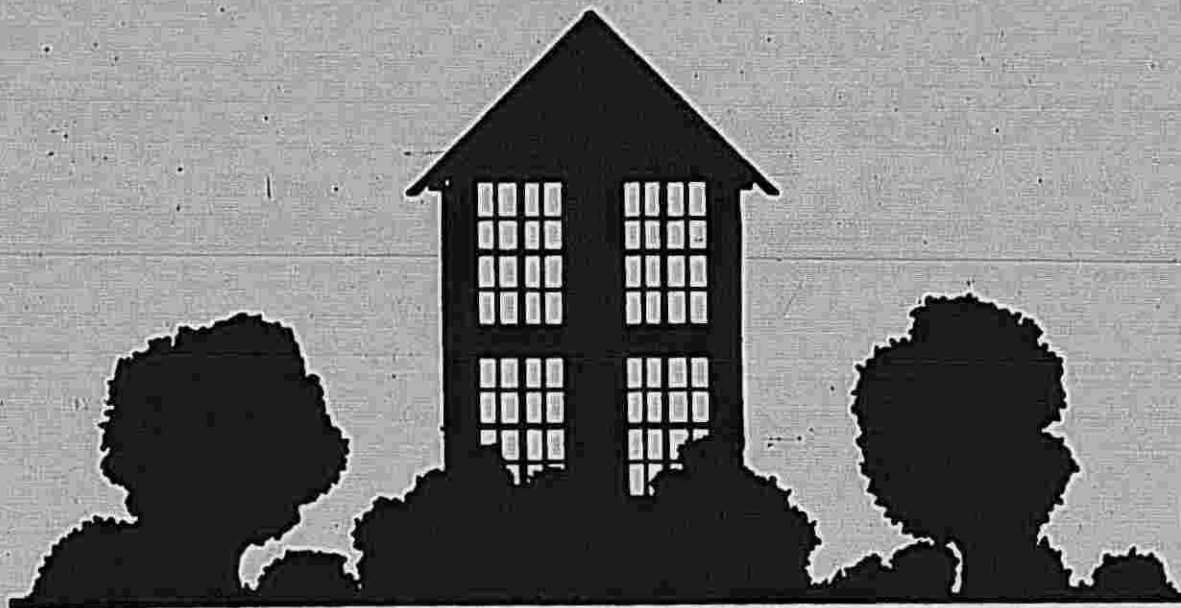

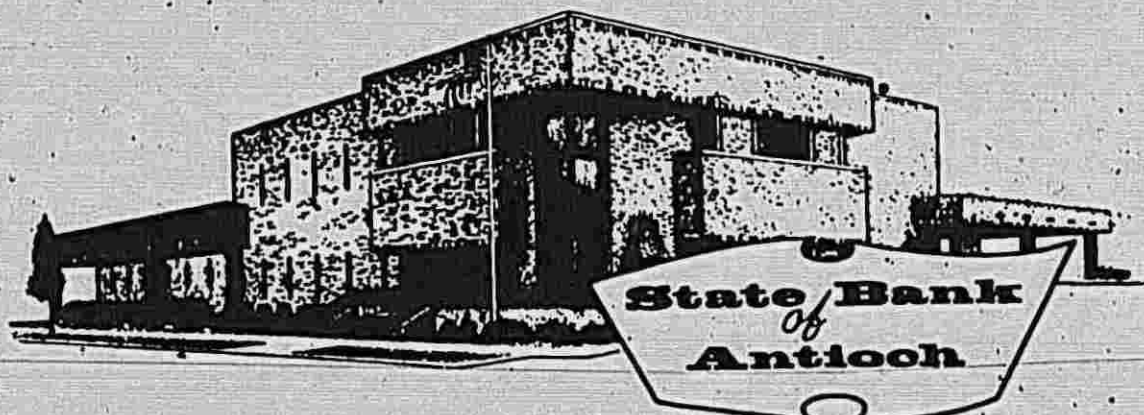

Today, however, the old familiar equity loan has new ingredients with lower rates at State Bank of Antioch.

In other words, the equity in your home becomes EQUITY CLASSIC, a new, personal revolving line of credit that gives you freedom to use and control your equity cash, without disturbing other assets and investments. It offers the ultimate in convenience, privacy and independence for a richer, more rewarding life now!

You're In Complete Control

Once eligible, you can establish a pre-approved line of credit from \$10,000 up to \$100,000 to use without further discussion with the bank. The amount of credit available to you is based on the equity you have in your home plus your ability to repay. You pay only for the credit you use. Your line is a reusable source of credit that's replenished as you repay your outstanding balance.

The minimum credit line is \$10,000. But, you may qualify for a credit line extended up to 70% of the appraised value of your home, less any current outstanding mortgage balance or liens.

The Flexibility Of Equity Classic Lets You Choose

Using your secured line of credit is as easy as writing a check. You can write Equity Classic checks as often as you like for whatever purpose you choose and in any amount up to the limit of your credit line.

We also provide you with a very special MasterCard II that can be used anywhere. This means you can travel in complete freedom without the worry of carrying cash.

Lower Your Borrowing Costs

The Annual Percentage Rate is an affordable two percentage points over the highest prime rate announced by either Northern Trust Company, Continental Illinois National Bank, First National Bank, Chicago, or their respective successors. This rate may change on a daily basis. You will be advised of the current rate at the time your account is approved.

Don't Wait . . . Apply Today!

To obtain your application and complete details on the Equity Classic personal line of credit, simply stop in the bank or phone one of our Customer Loan representatives today.

This may be the last loan application you ever need to complete!

When I think about it Summer fun can be all in how you look at things

by GLORIA DAVIS

To borrow a phrase from a famous watery tv personality, "can we talk here?"

Maybe someone of you in the reading audience can explain the perversity of the human mind to me. What element of masochism can be found in so many of us that drives us to self-punishment.

For instance, summer has arrived with a vengeance and those supposed "carefree" days are finally upon us.

Carefree, hah! Of course, it's perfectly understandable when an entire family leaves the sanctuary of a \$80,000 ranch home with all the modern conveniences and heads for a cabin up north for their summer fun.

And such fun it is! Mom gets to wrestle with archaic appliances at best. Instead of being rocked to bed by their waterbeds' waves, everybody gets to sleep on the rock-like firmness of camp cots or sleeping bags on the floor.

To add to the general hilarity, mosquito bites, bee stings and a possible encounter with poison ivy all promise to take part in this pleasure-filled scenario.

Another perplexing form of entertainment human beings seem to seek by the thousands involves paying good money for an amusement park ride that scares them to death and, as shown by recent events,

sometimes actually puts lives and limbs on the line.

In case there's a gap in the fun calendar, there's always the latest horror film to be seen either at the local movie house or on home video.

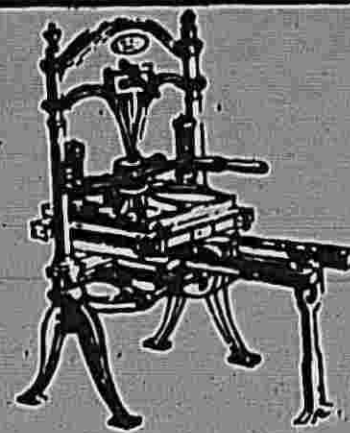

Personally, I find being frightened to death in my own living room much more amusing than being terrorized in public since I am not at my most attractive with my hair standing on end as I frantically nibble my fingernails to the quick.

I always wondered why such pain-inflicting contests such as football, marathon running, grueling professional tennis matches and bone-cracking hockey are called games. Games are supposed to be lighthearted fun-filled contests.

Come to think of it, maybe that gasp I heard just before a hockey puck struck one player across the bridge of his nose was really laughter.

To this long list of amusements add: purposefully baking in the sun until blistering and maybe worse occurs; having your insides shook apart while skimming across the waves in the bow of a boat and, last but not least, skinning shins, breaking bones and garnering blisters in the pursuit of some sport or other.

Now I ask you, that's entertainment?

Historical society gives grade school new life

The Lake Region Historical Society has received several new life memberships as a direct result of the recent article in the Antioch News (Reporter).

Another former resident has joined Hans Von Holwede of California as a "far-flung" participant. Sue Hawkinson of St. Paul, Minnesota, has sent a check in memory of her mother and father George and Hester Garland. Mrs. Garland taught in the Antioch school system for 30 years. Mrs. Hawkinson mentioned in her letter that Hans had been her teacher for nine years.

Work is progressing at the "Old School." Both the acquisitions and restoration committees were at the May 19 work day.

The acquisition committee received several very interesting donations from local

residents. They also transferred most of the articles which had been stored at the Antioch Township Library to the "Old School" so that cataloging can begin.

Many books, papers, and artifacts had been received by the society when it was first organized in the early 70's.

Work days are planned for the first and third Saturdays of every month for the entire summer. The restoration committee needs volunteers to help with the sanding and repair work.

The acquisition committee will be present from 9 until 11:30 a.m. to accept donations.

A few of the articles in the Society's possession are on display in a case at the Antioch Township Library.

SCHOOL GETS FACE LIFT - During work day at "Old Antioch Grade School," Earl Beese, one of Lakes Region Historical Society volunteers, replaced broken window in new historical museum.

The first traffic light in the U.S. was installed in Cleveland, Ohio, at the intersection of Euclid Ave. and E. 10th St., on August 5, 1914.

PAPERS IN MUSEUM - At work day at Lakes Region Historical Museum (Old Antioch Grade School) Joan Dugenske and Pat Wagner transfer old copies of Antioch papers to the old school, to be displayed after museum renovation is finished and new area historical museum is open to public.

Geo introduces new hazard bill

Two bills co-sponsored by Senator Adeline J. Geo-Karis (R-Zion) to help protect people from hazardous substances have passed easily in the State Senate and will go to the House for approval.

"We must all be concerned about the possible effects of hazardous materials, and the strong support for the two bills indicates the awareness of our lawmakers," Senator Geo-Karis said.

SB 1938 would require the Illinois Environmental Protection Agency (IEPA) to test water wells annually at the request of owners if the wells are within half a mile of either a hazardous waste disposal facility or a sanitary landfill.

SB 1939 would create a registry to collect information on health problems which might be related to hazardous substances. It also would create a Cancer Research Fund, to be financed with two percent of the money collected from cigarette taxes.

"Monitoring ground water for contamination from either landfills or hazardous waste facilities is absolutely necessary for the safety and health of our people," Senator Geo-Karis stated. "There are several disposal areas in my district which must be considered potential hazards."

The purpose of the

proposed registry would be to compile information which could be used to document whether certain health problems can be traced to hazardous substances.

"It is vital to get complete and accurate information from every possible source on cancer incidence, birth defects, miscarriages, occupational diseases and any other health problems which might be linked to contacts with hazardous substances," Senator Geo-Karis said.

"By gathering facts from physicians and hospitals, it will be possible to pinpoint dangers so they can be dealt with properly," she stated.

RESEARCH ON DECAY PREVENTION

Q. How is science trying to find ways to combat tooth decay?

A. Researchers are currently working on various methods of protecting teeth with oral immunization using benign bacteria to combat the microorganism most responsible for decay — the streptococcus mutans. This particular germ does its destructive work faster and more effectively than any of the other microorganisms in the mouth, yet it makes up only 20 percent of the total number.

Scientists are also looking for a vaccine against caries-causing bacteria, one that will be long-lasting and safe for humans. They are exploring the possibilities of a controlled-release antiseptic, and looking into the tooth-decay retardants in saliva that might be added to plaque-causing foods. Identification of specific tooth-damaging foods on the market is still another approach being followed.

All of these methods, a combination of them, or something still not discovered, will ultimately help to further combat decay.

Wedding

Mr. and Mrs. Ward Weber

Susan Plett of Richmond, daughter of Mr. and Mrs. Charles Plett of Antioch, was married on May 5, 1984 at 3 p.m. to Ward Weber, son of Mr. and Mrs. Raymond Weber Jr. of Richmond.

The ceremony was performed by the Rev. Steve Williams at the United Methodist Church in Antioch.

The bride chose a rainbow floral decor for the church and her bridesmaids wore dresses in assorted rainbow colors and carried matching bouquets.

The bridesmaids' dresses reflected the style of the bride's white satin and lace gown which was completed by a cathedral train and veil. Her bouquet was highlighted by white tea roses, carnations and stephanotis.

Mabel Lou Weber played a traditional wedding march at the ceremony.

The maid of honor was Pam Plett of Santa Clara, Calif. She is the sister of the bride. Linda Plett, Nancy Weber, Paula Weber and Ann Vierke were bridesmaids. Laurie Walczak was flower girl and Terry Weber was ringbearer.

Charles Plett, the bride's father gave away his daughter in marriage.

The best man was Mark Cunningham of Richmond. Tyler Weber, Steve Weber, Paul Weber and Ed Walczak were groomsmen. Todd Hamm and Dale Weber served as ushers.

Following the wedding, the parents of the bride feted the newlyweds at a buffet dinner at the Antioch VFW Hall, where 200 guests danced to the music of the "Time Machine."

The bride is a 1975 graduate of Antioch High School and is employed as a secretary by Woodland Landfill in Elgin.

The groom is a 1978 graduate of Richmond Burton High School and is employed as a truck driver for Thelen Sand and Gravel Ready-Mix.

The newlyweds, who are lifelong residents of Richmond, will honeymoon in California in June. They will reside in Richmond.

Cancer Society tees-off

The Lake County unit of the American Cancer Society will hold its fifth Annual Invitational Pro-Am Golf Tournament on Monday, June 19, at Knollwood Club in Lake Forest.

Each team will include four amateur golfers and one professional player. Entry fees are \$400 per individual player or \$1,600 per four-man amateur team. The contestants of the 22 teams involved said they are making a personal contribution to this cause as all the proceeds are tax deductible benefiting the American Cancer Society.

An array of prizes can be won by members of the best-scoring amateur foursome, and the winning team will be eligible to compete in the state playoffs, which will be held at Kemper Lake Golf Course, Old McHenry Road, Hawthorn Woods, Ill. on October 8. The National Playoffs will be held at the Doral Country Club in Miami, Florida, October 25-26.

Preceding the 1 p.m. shotgun start, a complimentary luncheon will be served to the golfers from 11 a.m. to 1 p.m. A complimentary awards dinner will immediately follow the end of tournament play.

Because of the concerted efforts of everyone involved in 1983, over \$22,500 was contributed to the fight against cancer, this being the second

highest amount raised by participants of any pro-am golf tournament in the Illinois Division.

For further information and entry forms, contact the Lake County Unit of The American Cancer Society, 336-9293, Chairman Ray Tibbits 291-5011 or co-chairman Tony Hebel, 234-1600.
